

Enhancing the Learning Environment in Vashon Public Schools

Vashon Partners in Education is an all-volunteer organization whose goal is to enhance the learning environment in our public schools. We do this by financing grants for activities and materials identified by those closest to the educational process—our teachers.

Vashon Public School District teachers, as well as staff and community members, are invited to submit grant proposals for specific needs and opportunities not addressed in the district budget. Requests are assessed on educational value, innovation, need and impact. Proposals are evaluated in late fall and monies distributed upon approval by PIE board members.
